
Straw Paper Strip Roll Slitting Rewinding Machine

Straw Paper Strip Roll Slitting Rewinding Machine

Use:

Machine in this series are mainly suitable for straw paper.

Feature:

1. The machine use center winding and the surface drum rewinding.
2. Web guide system, automatic tension control system with magnetic powder brake and clutch device
3. Machine with meter counter, automatic stop
4. Frequency Inverter control main motor
5. Optional : 3 Servo motor control rewinding system, Max rewinding diameter 800mm , Siemens PLC Touch Screen automatic tension control system

Main technical parameter:

Max. Width of roll material	600mmr
Max. Diameter of roll material	1000mm
Max. Diameter of rewinding roll	600mm
Min. Width of slitting	13.5mm,14mm and 15mm
Slitting Speed	0-120m/min
Total Power	6.5kw
Overall dimension (L x W x H mm)	2200x2000x1400
Weight	2200kg

Specification
1. Unwinder
